Origami Risk

Fully-Integrated Claims Administration

From submission to final settlement, **Origami provides scalable, cloud-based claims administration software** for digitizing the entire claim life cycle for all P&C lines of business. Leverage a **powerful platform of robust AI and automation tools,** configurable dashboards, advanced analytics, and digital engagement capabilities to delight customers, ensure compliance, inform decisions, and collaborate for optimal claims outcomes.

Reduce Claim Adjudication Costs

Origami Risk streamlines workflows and automates tasks, allowing you to prioritize and assign claims effectively. This **reduces adjudication expenses** and frees staff for more critical activities, **driving down expenses** and improving loss ratios.

Enhance Adjuster and Staff Efficiency

Always know precisely where a claim is in the process. Origami provides **meticulous documentation of interactions,** regardless of the channel, to ensure that key details are not only captured, but **made actionable.**

## Improve Policyholder Satisfaction

Deliver **exceptional claimant experiences** with a host of integrations that support return-to-work, digital payments, and more. **Effective communication tools** keep everyone informed, aligned, and satisfied.

Reveal Comprehensive Insights

Break down data silos with a **unified platform** that combines claims, policy, billing, loss control, and rating functions, tied together with **advanced analytics** that provide critical insights, enabling informed decision-making across the business.

Accelerate your claims administration deployment with Origami's proven implementation approach, including quick data migration and **out-of-the-box functionality,** and start realizing these benefits sooner for **speed-to-market success.**
